20<sup>th</sup> October 2022

Dear Parent/Carer,

We are excited to be able to offer your child a chance to attend a careers and science event in collaboration with Birmingham City University.

The University will be supporting us with the opportunity to participate in a bespoke experience where students will work with BCU students and staff, and Arena Academy staff whilst completing advanced practical experiments.

Our aim is to develop personal and professional employability skills, support our curriculum, and awareness of Post 16 options in line with our faculty and whole school intent.

The trip will take place on 25<sup>th</sup> November 2022. A private coach will bring students to the University for 10:30 and return to Arena Academy at 14:30. There is no cost to attend the BCU Science Workshop event. Students must bring a packed lunch as it will not be provided by the University. Pupil Premium students have access to a free packed lunch from Arena Academy.

Kind regards

Mr. C Levy  
Head of Science
