

Dear all the new Year 6 students that will be joining Arena Academy in Year 7,

We hope that you love your time at Arena Academy! Do not worry about starting secondary school. At first, the school may seem big but once you get used to it, it will feel quite small. Also, do not worry if you are the only person coming to Arena Academy from your primary school – there are lots of other people in your position. It is very easy to make friends at Arena Academy as there are lots of other students who will want to hang out with you!

All of the teachers at Arena Academy are friendly here and they cannot wait to see you in September, neither can we!

From Grace
